

# Alpine 64 GT

Cost-Effective Ultra Quiet AMD CPU Cooler

## Main Features

- Ultra quiet 80 mm PWM fan with low noise impeller
- Optimised heat sink design for high cooling performance
- Patented fan holder eliminates the buzzing sounds
- Pre-applied MX-2
- Fluid dynamic bearing

# Alpine 64 GT

Cost-Effective Ultra Quiet AMD CPU Cooler

The **Alpine 64 GT** is efficient, quiet and cost - effective. It incorporates an 80mm PWM fan, an optimised heatsink as well as pre-applied MX-2 for efficient heat transfer from the CPU. With the aid of patented fan holder and low noise impeller, the **Alpine 64 GT** operates in extreme quiet even spinning at full load.

## Specifications:

|                        |                                           |
|------------------------|-------------------------------------------|
| Dimensions:            | 100 L x 84 W x 64.5 H (mm)                |
| Fan:                   | 80 mm                                     |
| Fan Speed:             | 500 - 2000 RPM (controlled by PWM)        |
| Air Flow:              | 24.6 CFM / 41 m³/h                        |
| Max. Cooling Capacity: | 70 Watts                                  |
| Bearing:               | Fluid Dynamic Bearing                     |
| Weight:                | 295g                                      |
| Compatibility:         | AMD Socket AM2+, AM2, 939, 754 up to 70 W |

## Fluid Dynamic Bearing

## Cooling Performance at AMD Phenom X4 9100e:

## Noise Level at AMD Phenom X4 9100e:

The noise level is measured in Sone (loudness) instead of dB (sound intensity). The loudness depends upon ears response curves and tells you exactly how bothering a certain noise is. All brands and products are registered trademarks of their registered companies.
